Subject: Revised Letter Requesting an Extension of License (SUB-971) for License Termination  
ATK Ordnance and Ground Systems, LLC

2 June 2004

MATERIALS LICENSING SECTION  
Nuclear Regulatory Commission, Region III  
801 Warrenville Road  
Lisle, IL 60532-4351  
Attention: Mr. G. Michael McCann

*Handwritten:* A  
Docket: 040-17982

Dear Mr. McCann:

ATK Ordnance and Ground Systems, LLC (ATK), is sending this letter in order to inform the Nuclear Regulatory Commission (NRC) that ATK is applying to terminate NRC license SUB-00971. This letter supercedes the letter dated May 14, 2004 that requested a timely renewal of NRC Source Material License No. SUB-00971. Amendment 37 of NRC License SUB-00971 extended this NRC license to June 30, 2004. ATK is in the final stages of decommissioning the facility covered by NRC License SUB-00971 according to the approved Decontamination and Decommissioning Plan for the Twin Cities Army Ammunition Plant Depleted Uranium Facility, New Brighton, MN. All activities related to the decommissioning including shipment of waste, final status surveys and submission of the Final Report will be accomplished by June 18, 2004. However, sufficient time for the NRC to review and approve the Final Report may not remain before the June 30, 2004 license expiration date. Therefore, ATK is requesting that the NRC consider extending the expiration date of NRC License SUB-00971 in accordance with NRC policy regarding review and approval of the Final Report.

The status of the decommissioning as of the date of this letter is:

- All waste has been shipped from the site.
- Final status surveys will be completed on the areas where the waste was stored by June 4, 2004. The final status surveys of all of the areas except where waste was stored have been completed.
- The Final Report will be submitted to the NRC no later than June 18, 2004.

Should you have any questions, please contact me at 651-639-3331.

Sincerely,
