SUBJECT: HOSPITAL EPISCOPAL CRISTO REDENTOR, INC., ISSUANCE OF
CORRECTED COPY OF LICENSE, CONTROL NO. 134482

Dear Sr. Artilles:

Enclosed is the Corrected Copy of License No. 52-30883-01. Condition No. 12 has been changed to remove the Authorized Medical Physicist. 10 CFR Part 35 has no provision to name an Authorized Medical Physicist for the uses authorized on your license.

Please note that additional changes have been made to update your license to the current NRC format:

- a. Item 7.D. now lists a single source, Medi-Physics, Inc. Model 6711 (manufactured by Medi-Physics, Inc. or Amersham Health). The Rapid Strand product is not listed because it is composed of Model 6711 sources. The North American Scientific MED3633 source is not listed because currently available Pd-103 sources are produced in a cyclotron and are not licensed by the NRC.
- b. Items 9.C. and 9.D. are now restricted to authorize only procedures for which the patient can be released under the provisions of 10 CFR 35.75. If you intend to perform inpatient procedures, please submit a description of the inpatient hospital rooms to be used, including a description of any shielding.

Please review the enclosed document carefully and be sure that you understand and fully implement all of the conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

N. Artiles, MSPH, FACHE
Hospital Episcopal Cristo Redentor, Inc.
