NRC SEEKS PUBLIC COMMENT ON IMPLEMENTATION OF REACTOR OVERSIGHT PROCESS

6

So how come there is not an easy NRC advertised modern internet questionnaire -such that the public could just click on the answer dots -or submit their word answers for this important question in the of, is the ROP adequate. It's too much work for you and the public to transfer the question and answers onto a separate paper or e-mail. You could even give us a running percentage of the results immediately as you finish the poll for those who answered on the internet.

Thanks,

mike mulligan
