**Subject:** Pechiney Rolled Products; License # 47-1423-01, Amend. # 21

Mr. Collins:

As per our phone conversation, Pechiney is requesting the following revisions to Amendment # 21:

License Section 7A: Please include ABB Model S-15 for the Sr-90 sources.

License Sections 17 and 18: Please revise as follows:

17. A. Installation, initial radiation surveys, relocation, removal from service, dismantling, alignment, and non-routine maintenance or repair of

components related to the radiological safety of the gauge shall be performed only by William Jeff Brooks, Alan Hilliard, Terry Steele,

Chuck Bailey, Bruce Johnson, Jason Anglin, Rocky Ford, Mike Patterson or by persons specifically licensed by the U.S. Nuclear Regulatory Commission or an Agreement State to perform such services.

B. The following services shall not be performed by the licensee: Replacement and disposal of the sealed source. These services shall be performed only by persons specifically licensed by the U.S. Nuclear Regulatory Commission or an Agreement State to perform such services.

18. A. The licensee may maintain, repair, or replace device components that are not related to the radiological safety of the device and that do not result in the potential for any portion of the body to come into contact with the primary beam or in increased radiation levels in accessible areas.

B. The licensee may not maintain, repair, or replace: the sealed source, or any other component related to the radiological safety of the device, except as provided otherwise by specific conditions (named individuals) of this license.

The language provided in the above sections 17 and 18 is the same as the language provided in License Amendment # 20, except for the named individuals, which have been changed to reflect the existing qualified staff.

Again, I would like to thank you for your support on this project. Should you have any questions or comments, please do not hesitate to contact me at (304) 273-6972 or via email.

Jeff Brooks
