Revision to Emergency Action Levels Submittal – Enclosure 5

Reference 1) Letter from Nuclear Management Company, LLC to Document Control Desk, "Revision to Emergency Action Levels," dated October 22, 2004

In Reference 1), the Nuclear Management Company, LLC, (NMC) transmitted revisions to the Kewaunee Nuclear Power Plant Emergency Action Levels (EALs) for NRC review and approval.

Enclosure 5 to this submittal consisted of several Compact Disks (CDs), containing Enclosures, References, and Supporting Documentation. NMC was subsequently informed by the Document Control Desk, that the files contained on the CDs must be in "pdf" format, and the number of files per CD must be limited to 75.

NMC has since reconstructed the files on the CDs to be in "pdf" format, and has produced two (2) new CDs, each containing less than 75 files. These new CDs are provided as an enclosure to this letter for your information and use.

Summary of Commitments

This letter contains no new commitments and no revisions to existing commitments.

Thomas Coutu
Site Vice-President, Kewaunee Nuclear Power Plant
Nuclear Management Company, LLC
