Licensee/Applicant Participant(s):	Organization:	Telephone No.:	
Mike Nunno, consulting physicist	St. Mary Hospital	856-396-0980	
Person(s) Calling: SGabriel, RI			
Subject: License renewal commitments regarding intravascular brachytherapy			
<p>Summary:</p> <p>Mike left a voicemail message in response to a message left yesterday by Shirley Xu and me. I then called him.</p> <p>Mike said that before the 11/15/04 deficiency response letter was written, he spoke with the licensee's AMP about intravascular brachytherapy commitments. The AMP said they will commit to follow items 4.a. through j. of NRC's deficiency letter dated 10/25/04. Mike stated that the following item in the 11/15/04 deficiency response letter is intended to address this: "4a-j We confirm that we will follow each stipulation or requirement you have stated in this section."</p> <p>I informed Mike that we might consider accepting this statement if the hospital referenced the date of NRC's letter, however the hospital's letter does not specify the source of the questions being addressed. Mike said he will immediately draft an additional deficiency response letter listing each of the commitments, then submit this to the licensee for review and signature. He anticipates that we should receive this by fax within the next few days.</p>			
Action Required/Taken: Inform Shirley Xu, then await response from licensee
