As per your conversation with Kenny Teagarden, attached are the following items requested for the renewal of nuclear license No. 47-25312-01.

- No material was possessed or installed at Beryl site.
- If license material is required in the future license amendment will be obtained, before any material is possessed at Beryl.
- Please delete Beryl site as authorized place of use.

Also, be assured that we will take appropriate action to assure compliance if license material is required in the future at our Beryl site.

If you have any questions please call me at (304) 478-5530.

Sincerely,

Lonnie Wolfe  
Plant Manager
