SUBJECT: HOPE CREEK GENERATING STATION - PSEG'S PRELIMINARY  
RESPONSES TO NRC STAFF QUESTIONS REGARDING 'B'  
RECIRCULATION PUMP VIBRATION (TAC MC5111)

On December 17, 2004, NRC staff will be conducting a public meeting with representatives of PSEG, the licensed owner and operator of the Hope Creek Generating Station. The purpose of the meeting is to discuss PSEG's responses to NRC staff questions regarding Hope Creek 'B' recirculation pump high vibrations and high pressure coolant injection system exhaust pipe damage issues. The document attached to this memo was provided informally by the licensee to assist the NRC staff in its inspection activities regarding the pump vibration issue and to facilitate technical discussions between NRC and PSEG. The document provides preliminary responses to NRC staff questions that had been verbally transmitted to the licensee. This memorandum and the attachment do not convey a formal response by the licensee or represent an NRC staff position.
