Re: Documents Referenced in PFS Response to
State of Utah's Proposed Contention UU

Dear Denise:

In its order dated December 7, 2004, the Atomic Safety and Licensing Board directed that "if the State is otherwise unable to obtain prompt access to the complete version of documents referred to by the Applicant in its December 6 response (or by the Staff in its upcoming response), a timely motion for an extension may prove appropriate." Board Order at 2.

Our December 6 response references two documents other than those attached in their entirety to our response. Both documents are Department of Energy-issued documents. Entire copies of both documents are available on the Department of Energy website. For your convenience, the documents can be found at the following links.
