

December 17, 2004

Mr. Christopher M. Crane, President
and Chief Nuclear Officer
Exelon Generation Company, LLC
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: LASALLE COUNTY STATION, UNITS 1 AND 2, ISSUANCE OF AMENDMENTS
RE: PRESSURE-TEMPERATURE LIMITS (TAC NOS. MB7795 AND MB7796)

Dear Mr. Crane:

On December 10, 2004, the U.S. Nuclear Regulatory Commission (Commission) issued Amendment No. 170 to Facility Operating License No. NPF-11 and Amendment No. 156 to Facility Operating License No. NPF-18 for the LaSalle County Station (LSCS), Units 1 and 2, respectively. The amendments were in response to your application dated January 31, 2003 (RS-03-010), and supplemented by letters dated July 7 (RS-04-099) and November 15 (RS-04-169), 2004.

The amendments provided new P-T limits for the technical specifications that are valid to 20 effective full power years for each unit. The Commission is reissuing a corrected copy of TS pages 3.4.11-7 and 3.4.11-10 issued with amendment Nos. 170 and 156. Specifically, the correction is being issued to replace the above mentioned pages which were the old P-T curves and were inadvertently placed in the amendment package. The correct pages are enclosed with this letter.

Sincerely,

/RA/

Stephen P. Sands, Project Manager, Section 2
Project Directorate III
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Docket Nos. 50-373 and 50-374

Enclosure: As stated
