MEMORANDUM

to: James Bondick, USNRC Region I
from: John Ramsey
subject: Control # 124231
date: December 4, 1997

I am submitting the following information as per our telephone conversation this morning.

Cardiopet Veterinary Associates, Inc. will committ to perform weekly contamination surveys. Radiation level surveys will also be performed at a minimum frequency of weekly for therapy and pet containment room, waste storage area, and occupied space adjacent to restricted areas.

Waste which has been held for a minimum of 10 half lives will be surveyed with a radiation detection meter prior to release. If waste is greater than background it will be returned to decay in storage and resurveyed at a future time. A disposal record will be made for all decay in storage material and will be kept for inspection review.

Please call me at 908-788-9440 if you require additional information.

Thank you.
