Division of Licensing Project Management
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF MEETING HELD ON DECEMBER 16, 2004, WITH THE WESTINGHOUSE OWNERS GROUP REGARDING WCAP-16083-NP, "BENCHMARK TESTING OF THE FERRET CODE FOR LEAST SQUARES EVALUATION OF LIGHT WATER REACTOR DOSIMETRY" (TAC NO. MC3974)

On July 30, 2004, the Westinghouse Owners Group (WOG) submitted Topical Report (TR) WCAP-16083-NP, "Benchmark Testing of the Ferret Code for Least Squares Evaluation of Light Water Reactor Dosimetry," to the NRC staff for review. By e-mail dated September 20, 2004, the NRC staff provided comments to the WOG. Those comments need to be resolved before the NRC staff can accept the TR for review.

On December 16, 2004, representatives of the WOG met with the NRC staff to discuss and resolve the comments so that the TR can be accepted for the NRC staff's review.

The WOG began the meeting with a discussion of its plan for addressing the NRC staff's comments and the clarifications needed related to the NRC staff's review of the TR. All the NRC staff's comments were resolved in the meeting and the WOG concluded the meeting by stating that WCAP-16083-P will be revised consistent with the approaches discussed in the meeting to address the issues identified by the NRC staff. Based on the WOG presentation, the NRC staff acknowledged that with the discussed modifications, the TR will be acceptable for the NRC staff's review.

Following the meeting, the NRC staff expressed its appreciation to the WOG for the presentation. An attendance list is provided in the attachment. There were no members of the public represented at the meeting. No slides were used during the meeting.
