Public Comment: Draft Environmental Impact Statement for the Uranium Enrichment
Facility Proposed by Louisiana Energy Services for Lea County, NM

I am submitting my public comment for the Louisiana Energy Services DEIS. I ask that the final EIS address the following:

The DEIS says that construction would be done in phases and that cascades would be brought on-line in stages. This is clearly a security vulnerability. How will LES assure that construction workers have sufficient security clearances when working adjacent to operational facilities?

Sincerely,

John D. Martin
