NUREG-1790/Docket#70-3103

(107)

To Whom It May Concern:

The NRC should deny the license application for Louisiana Energy Services, Urenco on the basis of the following:

There is no viable alternative for the depleted uranium waste tails that will be generated by the operations of this plant. The possible alternatives listed in the Draft EIS are not plausible since an effective alternative, the deconversion plant have not even been built for the older depleted uranium waste at other sites in the US. There will be opposition to such plant if plans are drawn up to build in NM or TX.

Sincerely,

*Greg L. Alinder*  
*Louise Pearson*  
*Fred M. Oates*  
*Delphina Ortiz*  
*Charlotte Shirley-Driver*  
*Sharon Martin*  
*Tracy Martin*  
*Walter Williams*  
*Emma Ayers*  
*Jessica Paul*
