Dear Dr. Rademacher:

Enclosed is Amendment No. 18 to your NRC Material License No. 22-00027-06 in accordance with your request. **Please note that the expiration date has been extended to March 31, 2005, in order to give ample time for the final closeout survey and a closeout inspection, if NRC determines that one is warranted. Please provide your final closeout survey as soon as possible along with a termination request.**

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at 800-397-4209 or 301-415-4737 or pdr@nrc.gov.

Sincerely,
