Dear Ms. Fox:

It has come to our attention that Amendment Nos. 48 and 49 to NRC License No. 22-00015-02 contained an error.

In a letter dated October 4, 2004, you requested strontium-90 for use in the Novoste device be removed from your NRC license and you provided your close-out survey and deposition of material. However, Drs. Haselow and Olson's authorization to use this devices was not removed from your NRC license. Therefore, enclosed is a corrected copy of your NRC license which removes Drs. Haselow and Olson's authorization to use of the Novoste device. We apologize for any inconvenience this may have caused you.

Sincerely,
