Subject: January 18, 2005 scoping meeting

Mr. Sea,

Brian Smith asked me to send you an e-mail as a followup to your discussion with him earlier this afternoon.

The January 18, 2005 EIS scoping meeting was formally announced earlier today. It is listed on the NRC website under <http://www.nrc.gov/public-involve/public-meetings/index.cfm>. As part of NRC's public outreach efforts, I intend to notify all those on my USEC Inc.'s American Centrifuge Plant (ACP) e-mail notification list about the January 18th meeting tomorrow. I had included you in that list. However, today I realized that I had made an error in entering your e-mail address. As such, I am attaching to this e-mail copies of the two previous e-mails that I had sent to those on the list notifying them of any significant project milestone completions or any significant changes to the project scope or schedule.
