David - OK. John Minns will probably be taking the lead on this issue when he gets back in the office next week, so I'll forward this e-mail to him also. (John is the ANO-1 PM, I'm the ANO-2 PM.)

John Minns - See the message from David Diec below. In addition to keeping David informed, the human factors folks present at the Regulatory Conference were Jim Bongarra and Richard Eckenrode. David Diec wants you to keep all three of them informed of developments on the ANO fire protection manual actions issue.

Tom,

ANO issue is important to the development of the proposed rulemaking on post-fire operator manual actions. Please keep us (me and human factor folks) inform with the development and correspondences with the plant.
