Subject: License renewal request for additional information		
<p>Summary:</p> <p>I asked LCDR Simpson about the USUHS response to NRC's request for additional information dated November 24, 2004. LCDR Simpson stated that his response was complete and he was waiting for Colonel Jarrett to sign the letter. He expected that it would be signed on December 23, 2004. I provided LCDR Simpson with my fax number so he could fax the response once it was signed. I also asked LCDR Simpson about the Co-60 and Cf-252 sealed sources listed on the license (items 6.I. and 6.M.) LCDR Simpson stated that these sources, which had been used for instrument calibration in the past, were no longer possessed by the licensee. LCDR Simpson stated that he would fax the response as soon as it was signed by management.</p>
