Subject: Fwd: Re: Thinking About Timeline for Manual Actions Technical Support

We probably want to wait until after the 10/17 public workshop before doing more than just discussing the schedule conceptually. What we could do is get some internal NRC agreement and present it to industry on 10/17, since they may be asked to be contributors to some of the technical aspects, if they choose.

I suggest, the players sit down and work out a list of deliverables and time lines....
