**Subject:** Interim feasibility criteria on Manual Actions

To all:

Over the last few weeks, Ray Gallucci of my staff received inputs from almost all of you on the above. He had the difficult task to bring all of your inputs (sometimes diverse) together and recommend a set of criteria, which will be classified as "interim feasibility criteria" for the manual action rule making. I have made some minor changes. We plan to share these with NEI and other members of the public at the tomorrow meeting.

My thanks to Ray and who he refers to as the "Manual Action Gang" for sharing your views.

Sunil
