Please do not put this in ADAMs (not yet). Erasmia produced this upon my request.

Ray, -

Is Erasmia going to place this in ADAMS? If so, it should be in a more formal format. Additionally it should be more a record of the meeting and less about what is Research's responsibility.

Since SPLB was the lead for the meeting, I suggest that you take what I forwarded you before and complete a comprehensive memorandum outlining the salient policy decisions made.

Thanks.
