Ray,

Please, make sure that the letter gets in ADAMS!!!!

I'm available whenever on Monday.
- Eva

NEI's comments arrived yesterday, over a week late. But, they have offered rewording of the criteria that I think we should address (they also included the expected "Why do we need detection and suppression?" etc.). I don't have an electronic copy yet, so I'll hand deliver.

I'd like to get together early next week to discuss their rewordings to determine if any have merit. Please let me know your availability for Monday through Wednesday.

(Alex, Jason, James - for info only - comment or attend at your leisure - let me know if you want copies).
