~~PROFESSIONAL INFORMATION~~

Eva,

Find attached. The document that I have for that date is not from NEI, but rather from Progress Energy. It's ML040420213. I included this in answer to that question because the question also asked for correspondance with NEI "or its members". I just assumed Progress Energy was a member of NEI.

-Jason.

Guys,

I have been looking for the January 27, 2004 NEI letter entitled " Comments on Draft Criteria for Determining Feasibility of Manual Actions to ..." I have been unable to locate it in ADAMS. Is it in ADAMS under some other title?

This is one of the files we need to include on the Congressional CD and I don't have an electronic file or ML.

Your assistance would be greatly appreciated.
