Subject: REPLY REQUESTED: NEI Questions

Sunil,

I talked with Fred Emerson- NEI- this morning and he has the following questions:

- 1] Date for manual action public meeting to discuss our responses to the public comments?
- 2] Date for associated circuits public meeting to discuss NEI self-assessment guidance?
- 3] John Hannon indicated that SPLB wants to observe the industry associated circuits self-assessments. How much notice do you need? The first assessment is scheduled for the first week in May at a Region III plant. He didn't specify the plant.
