~~PREDECISIONAL INFORMATION~~

I'll call next week's version (with Gareth's T3 material) the "final." John and Alan will give me what they have then prior to my trip to Pittsburgh (6/13-6/17). They will continue to forward pieces of the Reg. Guide as they compose it for SPLB review throughout June, so a "final" preliminary draft will be ready for your June 30 rule package. For now, here's the "nearly final" version of the draft on the Time Margin material from the Expert Elicitations. As per John's memo, he and Alan will finalize over the next week. Consider this the first major part of the OpManAx Reg. Guide.
