Subject: Information needed on byproduct material			
Summary:			
<p>I spoke with Frank Ottino about sending in the manufacturer and model number of all sources used for 35.400 and 35.500. I asked for verification that their Cs-137 can be licensed under 35.65. I also talk to him about removing 31.11 for their license since they no longer perform those operations and P-32 since Guidant has gone out of business.</p>			
Action Required/Taken: Frank Ottino is faxing that information. I am awaiting the facsimile.
