Subject: license amendment		
<p>I called the licensee on 12/29/04 and left a message with the receptionist for Dr. MacKrell to call me back. I never rec'd a call back so I called again today, and left another message since he was not in. The licensee has requested to add an additional make and model for the Gd-153 patient attenuation source listed on their license. They included the SSD w/ their request. The SSD lists eight different model numbers. I need to know either the specific source model number or the make & model of the camera (the SSD for the camera will indicate the proper source model number).</p>		
Action Required/Taken: called licensee 2 nd time and left message again
