**Licensee Name:** Central Virginia Laboratories & Consultants, Inc.

**Date:** 1/4/2005

**Time:** 9 AM

**License No.:** 45-25198-01

**Docket No.:** 03032741

**Control No.:** 136049

**Licensee Contact:** Adrian Mood,  
President & General Manager

**Telephone No:** 434.847.2852

**NRC Contact:** Kathy Dolce Modes

**Telephone No:** 610.337.5251

**Subject:** Need confirmation of no alpha contamination

**Summary:**

**BACKGROUND INFORMATION:** Licensee is requesting to remove one of their facilities from License Condition 10. Licensee's letter dated November 9, 2004 indicated that there has never been any radioactive material at this location since March 2003 when they activated this facility. Licensee's letter also noted that all samples were carefully screened with a Geiger Mueller system to detect any radioactivity and none of the sample showed any indication of radiation above background.

I called the licensee and left a voice mail message:

Please provide confirmation that there is no alpha contamination at the Virginia Beach facility. The last inspector noted that the contractor included in every shipment a radiological survey form that showed gamma and alpha measurements had been taken before shipment to the you. Please provide evidence that there is no alpha contamination.

**Action Required/Taken:**

Wait for response from licensee and then process amendment request.
