RE: Radioactive Materials License Number 29-28341-02MD
Docket Number 030-31972

030-31972

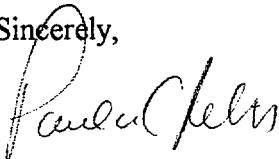

X

Gentlemen,

Please find the enclosed renewal application in duplicate for the above referenced license. As per instructions from your office I am informing you that as a result of data entry error we did not receive the customary notification informing us that our license was due to expire. Apparently the expiration date on file is listed as November 30, 1995 rather than November 30, 1994 (on the license).

Thank you for your assistance and if there are any questions please do not hesitate to contact me at (708)593-6300, extension 381.

Sincerely,

Paula C. Jeter
Sr. Health Physicist
