In the Matter of  
LOUISIANA ENERGY SERVICES, L.P.  
(National Enrichment Facility)  
Docket No. 70-3103-ML

Dear Administrative Judges:

On December 22, 2004, the NRC Staff provided notice to the Board and parties that its redaction of sensitive documents in the above-captioned proceeding was partially complete, and provided a compact disc (CD) containing redacted documents as of that date. The Staff has completed its redaction of sensitive documents, and is hereby providing the Board and parties with a CD containing the documents that were redacted subsequent to the Staff's update of December 22, 2004. Four sensitive documents were not redacted because the entire document contained sensitive information and will remain not publicly available. The accession numbers for these documents are: ML042190027, ML042190028, ML042190034, and ML042190037.

The Staff has also updated the index listing all of the documents in the hearing file which have been redacted. On the index, the Staff has identified documents which have been placed on the NRC public web site in redacted form and the location of the document. Redacted documents are also publicly available through the Citrix-based version of the ADAMS Publicly Available Records System ("PARS").
