Dear Mr. Passetti :

In order to help both Agreement States and the U.S. Nuclear Regulatory Commission (NRC) remain knowledgeable of each others' programs and to conduct planning for the next Integrated Materials Performance Evaluation Program (IMPEP) review, the IMPEP process includes holding one-day periodic meetings with Agreement States between IMPEP reviews.

In accordance with the Office of State and Tribal Programs (STP) Procedure SA-116, we request a meeting, no longer than one day, to discuss your Agreement State Program and share programmatic information. This letter confirms that, after previous coordination, the meeting is scheduled for February 3, 2005, and will be held in your offices.

Based on our previous discussions the likely topics for discussion at the meeting include:

5. Event Reporting, including follow-up and closure information in Nuclear Materials Events Data Base (NMED).
6. Response to Incidents and Allegations:

 - b. Significant events and generic implications.
7. Status of the Sealed Source and Device Evaluation Program.
8. Information exchange and discussion:
