PROGRAM SCOPE			
Small Industrial Radiography Licensee - President of company is Chris Grass who is also RSO and user			
There is a second radiographer and 3 assistants. Licensee possesses 2 Spec 150 cameras.			
Small Industrial Radiography Licensee. President of company is Chris Grass who is also RSO and user. There is a second radiographer and 3 assistants. Licensee possesses 2 Spec 150 cameras. Usage is daily throughout the year in the Fairbanks area in addition to military bases. With exception of the 2 findings listed below all documentation relating to radiation safety and operation was in order. Last inspection was October 2003 and was clear. This inspection resulted in 2 SL 4 violations involving failures to: conduct a public dose assessment pursuant to 10 CFR 20.1301; and provide hazmat refresher training. Licensee was to perform the public dose assessment that day and will proceed to either download the HAZMAT modules from the DOT website or will obtain the training locally. The licensee agreed to accomplish these actions within 30 days. The violations and corrective actions were documented on a NRC form 591M form part 1 and a copy left on site.
