

DOCKET NUMBER  
PETITION RULE PAM 73-12  
(69FR 64690)

32

From: Shannon Hart <shart415@yahoo.com>  
To: <SECY@nrc.gov>  
Date: Fri, Jan 7, 2005 2:14 AM  
Subject: PRM-73-12

I am writing in support of Committee to Bridge the Gap's petition with the NRC requesting that the NRC amend its regulations to upgrade the "design basis threat" regulations &/or the magnitude of threat that the facility's security systems must be capable of defeating. It is time to act responsibly and be proactive in the protection of our homeland and potential risks for mass destruction and death. The NRC must upgrade antiquated regulations to require protection against attacks by terrorists in th enumbers and with the capabilities evidenced on Sept. 11. In the name of the those who fell on that horrible day & their survived family members & friends, our government must do everything possible to protect us from future attacks, which includes better preparation and protection of our nuclear facilities. Please act responsibly to rectify our current situation by implementing Committee to Bridge the Gap's recommendations for rulemaking as outlined in the petition. Thank yo!

u.
