

January 26, 2005

LICENSEE: FirstEnergy Nuclear Operating Company (FENOC)
FACILITY: Beaver Valley Power Station, Unit Nos. 1 and 2 (BVPS-1 and 2)
SUBJECT: SUMMARY OF DECEMBER 15, 2004, CATEGORY 1 WORKING-LEVEL MEETING WITH FENOC TO DISCUSS THE LICENSEE'S EXTENDED POWER UPRATE (EPU) SUBMITTAL DATED OCTOBER 4, 2004 (AGENCYWIDE DOCUMENTS ACCESS AND MANAGEMENT SYSTEM (ADAMS) ACCESSION NO. ML042920300)

On December 15, 2004, a public meeting was held between the U.S. Nuclear Regulatory Commission (NRC), and representatives of FENOC, the licensee for BVPS-1 and 2 and its contractors, Stone & Webster Corporation and Westinghouse Electric Company (Westinghouse) at the Westinghouse Washington Operations Office located at 12300 Twinbrook Parkway, Suite 330, Rockville, Maryland. The purpose of the meeting was to conduct a working-level discussion of the licensee's October 4, 2004, EPU license amendment application for BVPS-1 and 2.

FENOC presented information on its application and its interrelationship with other pending and future license amendment requests. It also discussed the research and development of the application, planned staged power ascension and testing, Updated Final Safety Analysis Report and NRC Review Matrix (RS-001) links, necessary plant modifications, BVPS-1 steam generator replacement, full implementation of the alternate source term, non-EPU changes, and implementation schedules.

Following the licensee's prepared presentation, NRC staff reviewers and the licensee's technical experts divided into breakout sessions to discuss specific general questions the NRC staff members had concerning the application. Members of the public in attendance observed the breakout sessions.

The business portion of the meeting concluded with the licensee requesting the status of the NRC staff's acceptance review of the licensee's application. The NRC staff informed the licensee that the acceptance review was in progress and would be completed shortly. The letter documenting the acceptance review results was issued to the licensee on January 6, 2005 (ADAMS accession number ML043440113).
