Subject: Additional Information Needed			
<p>Summary:</p> <p>The licensee submitted a request for change of RSO, complete new list of authorized users, and completely revised radiation safety program. The new program has changes to many of the commitments in the previous application. They have requested to that references to the previous correspondence be removed. Additional information is required to fully evaluate and make the change per NUREG 1556 Volume 4 Appendix B. I requested the proposed RSO send a completed Appendix B or I would need to send a deficiency letter requesting specific supporting information for their request of November 3, 2004. I also requested the proposed RSO provide information on his previous experience with radioactive gauges.</p> <p>Mr. Walker stated he would ensure that his experience information was provided. He also stated that he would review NUREG 1556, volume 4, appendix B, the licensee's letter dated December 2, 1996, and their recent application of November 3, 2004. He will make a decision and fax me a completed appendix B as appropriate.</p>
