SUBJECT: ACCEPTANCE OF TOPICAL REPORT "HFC-6000 SAFETY SYSTEM" FOR  
REVIEW (TAC NO. MC5380)

Dear Mr. Hsu:

By letter dated November 19, 2004, HF Controls Corporation submitted for U.S. Nuclear Regulatory Commission (NRC) staff review Topical Report (TR) "HFC-6000 Safety System" (HFC-6000). The NRC staff has performed an acceptance review of HFC-6000. We have found that the material presented is sufficient to begin our comprehensive review. The staff expects to issue requests for additional information by June 30, 2005, complete its review by June 30, 2006, and estimates that the review will require approximately 2100 staff hours including project management time. The review schedule milestones and estimated review costs were discussed and agreed upon in a telephone conference between yourself, some of your staff and the NRC staff on January 4, 2005.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver, therefore, staff hours will be billed accordingly.

Sincerely,
