SUBJECT: AMERICAN VIDEO GLASS COMPANY, LLC, REQUEST FOR ADDITIONAL INFORMATION CONCERNING APPLICATION FOR AMENDMENT TO LICENSE, CONTROL NO. 135948

Dear Mr. Myers:

This is in reference to your letter dated November 3, 2004 requesting to amend Nuclear Regulatory Commission License No. 37-30348-01. In order to continue our review, we need the following additional information:

1. Your application does not contain the information needed to support your request for fixed gauge activities. Please resubmit your application using the guidance in NUREG-1556, Volume 4, "Consolidated Guidance About Materials Licensees: Program-Specific Guidance About Fixed Gauges" (enclosed). The checklist in Appendix B in NUREG-1556, Volume 4 contains procedures that are acceptable to the NRC and may be used to submit your response. Your application provided verbiage that differs from the current guidance and also provides information not required to be submitted at this time. Please photocopy Appendices A and B, checkmark the appropriate boxes, and re-submit.
2. Please provide the Radiation Safety Officer's business facsimile number for our records.

Please note for your records that the NRC 24-hour emergency operations center's telephone number is: (301)816-5100. Emergency Procedures should not be submitted with your licensing requests at this time. These procedures will be reviewed during our inspections.

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the NRC Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at 800-397-4209 or 301-415-4737 or pdrc@nrc.gov.
