**SUBJECT:** AGY-HUNTINGDON, LLC, REQUEST FOR ADDITIONAL INFORMATION  
CONCERNING APPLICATION FOR AMENDMENT TO LICENSE, CONTROL  
NO. 136208

Dear Mr. Masciangelo:

This is in reference to your application and letter dated December 22, 2004 requesting to amend Nuclear Regulatory Commission License No. 37-30750-01. In order to continue our review, we need the following additional information:

1. Your application does not contain the information needed to support your request for fixed gauge activities. Please resubmit your application using the guidance in NUREG-1556, Volume 4, "Consolidated Guidance About Materials Licensees: Program-Specific Guidance About Fixed Gauges" (enclosed). The checklist in Appendix B in NUREG-1556, Volume 4 contains procedures that are acceptable to the NRC and may be used to submit your response. Your application provided verbiage that differs from the current guidance and also provides information not required to be submitted at this time. Please photocopy Appendices A and B, checkmark the appropriate boxes, and attach your procedure titled: "Bolting and Unbolting."
2. Your application indicates that you possess Berthold Model No. 7440 fixed gauges. In order to assure that Item 7 of your license correctly identifies the sealed source model numbers associated with these gauges, please indicate if these gauges were manufactured by Berthold Systems, Inc. or by Berthold Technologies, Inc. Berthold Systems no longer manufactures these devices and is no longer in business. Berthold Technologies is a viable company that manufactures these devices, but with different sealed source models. If you know the Sealed Source and Device Registration number, you may provide that number.
3. In your letter dated April 5, 2004, you indicated that your company was emerging out of bankruptcy. Please describe the current financial situation of your company.
4. Please provide the Radiation Safety Officer's business fax and email address for our records.

Please note for your records that the NRC 24-hour emergency operations center's telephone number is: (301)816-5100. Emergency Procedures should not be submitted with your licensing requests at this time. These procedures will be reviewed during our inspections.

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the NRC Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at 800-397-4209 or 301-415-4737 or [pdrc@nrc.gov](mailto:pdrc@nrc.gov).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 136208. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5251.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we shall assume that you do not wish to pursue your application.

Sincerely,

***Original signed by Kathy Dolce Modes***
