

Welcome to the NRC's Open House
Associated with the Environmental Review for the proposed
License Renewal at Millstone Power Station, Units 2 and 3

This open house is intended to provide an opportunity for interested members of the public and staff from other Federal, State, and local agencies to interact with the NRC staff in an informal information exchange.

Comments received after this date will be considered if it is practical to do so, but the NRC staff is able to assure consideration only for comments received on or before this date. Written comments on the draft supplement to the GEIS should be sent to:
