OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

In respect to the Petition for Rulemaking to the U.S. Nuclear Regulatory Commission (posted in the Federal Register on November 8, 2004, Volume 69, Number 215) for "Upgrading the Design Basis Threat Regulations for Protection Against Terrorist Attacks on Nuclear Reactors.", I whole heartedly support this petition. It is unconscionable that the NRC has done so little to protect the public against this possibility, which carries the largest threat of any envisionable terrorist attack.
