OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

I find it interesting that passengers can't carry a pair of tweezers onto an airplane but those same people have easier access to these potentially dangerous plants. The world is not a safe place anywhere, and here is the U.S we are a terrorist target. Our enemies are not stupid and could easily attack a nuclear plant with devastating results. Please upgrade safety requirements for these plants; it could save lives and destruction.

Thank you,

Mary Rausch
