OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Secretary:

I am writing to ask that you act on the Petition before you to upgrade safety requirements of our nuclear power plants.

I lived in Northern Europe when Chernobyl blew. I currently have growths on my thyroid as do several of my friends who lived there at the time. One who currently lives in Paris was told by her Doctor there that they have seen MANY people with cancerous growths who were downwind from Chernobyl. We cannot afford the catastrophic consequences of a leak at one of these facilities.

It is time you stepped up to protect the public you are supposed to safeguard instead of coddling the nuclear power industry. We expect action from you and we expect it now!
