

January 27, 2005

MEMORANDUM TO: Tim Harris, Section Leader  
Materials Safety and Inspection Branch, IMNS

FROM: Tomas Herrera */RA/*  
Materials Safety and Inspection Branch, IMNS

SUBJECT: SUMMARY OF MEETING WITH INTERNATIONAL  
ISOTOPES INC., JANUARY 25, 2005

International Isotopes Inc. representatives requested a meeting with NRC staff, on January 25, 2005, to discuss their application for irradiator and teletherapy sources.

The meeting addressed International Isotopes Inc.'s draft response to the NRC request for additional information. The topics included:

- prototype testing;
- construction of the device;
- manufacturing procedures;
- quality assurance program;
- conditions of use;
- guidelines for withholding proprietary information.

The NRC participants outlined the type of responses that the NRC would deem acceptable to the request for additional information.

The objective of the meeting was to answer any questions that the representatives from International Isotopes Inc., had regarding the request for additional information and NRCs expectations on the responses that it would accept from International Isotopes Inc.

A copy of the meeting agenda is attached.
