

DOCKET NUMBER  
PETITION RULE PRM 73-12

Subject: power plant safety

I understand that the NRC is aware of the #1 terrorist danger to the US in terms of a 9/11 attack on a nuclear facility. I expect the media will remind the public of this and we would all relax a bit if the NRC would implement the advice of the GAO, the Union of Concerned Scientists, and Physicians for Social Responsibility, to which I belong. We literally cannot live with any politization or delay of action to safeguard nuclear plants with participation of the US scientific community.

Sincerely, Burritt S. Lacy, Jr. M.D., Manhattan, Ks 66502
