OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

To: Nuclear Regulatory Commission

Re: Committee to Bridge the Gap Petition for Rulemaking

Dear Madam Secretary:

Over three years have passed since the attack on 9/11/2001 and still no substantial effort has been made by the NRC to implement any common sense, protective safety measures. We are writing to add our voices to those who are in support of PRM 73-12 submitted by Committee to Bridge the Gap.

It is essential to upgrade the "design basis threat" (DBT) regulations for nuclear energy plants and to upgrade protective structures surrounding our nuclear energy plants. Common sense says that these relatively inexpensive measures could potentially save thousands, if not millions of lives.

Sincerely,

Susan Clark   Catherine Lincoln
President   Coordinator
