MEMORANDUM TO: Mark S. Delligatti, Chief  
Rulemaking & Guidance Section B  
Division of Industrial and Medical  
Nuclear Safety, NMSS

FROM: John D. Monninger, Chief /RA/  
Licensing Section  
Spent Fuel Project Office, NMSS

SUBJECT: COMPLETION OF TECHNICAL REVIEW FOR THE VENTILATED  
STORAGE CASK (VSC-24) SYSTEM, AMENDMENT 5

We have completed our review of the proposed Certificate of Compliance (CoC) No. 1007, Amendment No. 5, and its corresponding Technical Specifications (TS) for the Ventilated Storage Cask (VSC-24) System. The proposed changes to the CoC are indicated by vertical lines on the right margin. The changes proposed for Amendment No. 5 are discussed in the staff's Safety Evaluation Report (SER).

BNFL Fuel Solutions Corporation (BFS) requested an amendment to CoC No. 1007 to change the certificate holder's name from Pacific Sierra Nuclear Associates (PSNA) to BNFL Fuel Solutions Corporation. The change does not require any changes to the system's Final Safety Analysis Report or its TS.

The proposed CoC and TS, and preliminary SER have been placed in ADAMS (see reference below) and are available for your use in the rulemaking package. The Spent Fuel Project Office will designate these documents as Official Agency Records after the Executive Director for Operations has approved the package.

Docket No. 72-1007  
TAC No. L23779

ADAMS Reference: Accession No. ML050310446
