Subject: Renewal of your NRC license.

I have completed a preliminary review of your application and need some additional information as follows:

1. Our current licensing policy is to list all sealed sources by manufacturer and model number on the license. Please provide this information so we may identify each sealed source you will possess.
2. We note that you have indicated an alternate Radiation Safety Officer (RSO) and that he may assume the duties and responsibilities of the RSO. NRC's regulations do not recognize an alternate RSO position and the responsibilities remain with the RSO. The RSO may delegate some duties but not the responsibility. Please confirm the RSO will remain responsible.

You may reply by facsimile to 610 337-5269 and refer to Mail Control 136224. I may be reached at 610 337-5303.

Thank you in advance.
