Dear Nils Diaz:

Dear Chairman Diaz,

The community of Eunice, New Mexico has a right to know about the environmental and health impacts that Louisiana Energy Service's (LES) proposed uranium enrichment facility will bring to their community. In fact, the National Environmental Policy Act (NEPA) provides for a public "environmental assessment" of any federal action that could damage the environment. This process includes public notice and comment, and requires your agency to acknowledge and respond to comments.

However, the NRC removed health and safety information from the Draft Environmental Impact Statement of LES's proposed uranium enrichment facility. This action has hampered the public's ability to learn about and provide input on this project. Your agency's actions blatantly violate NEPA, and have set a dangerous precedent for other agencies to disregard public disclosure laws aimed at protecting public health and the environment.

Please reopen the public comment period, provide a complete EIS, and give the public enough time for its consideration. In addition, please provide me with a written response stating how the NRC has the authority to remove a Draft Environmental Impact Statement from public view, and repost a redacted version for public comment.

Sincerely,

Sincerely,

Matthew Liebman

Dear Nils Diaz:

Dear Chairman Diaz,

Stop hiding behind the Patriot Act to keep information from the public that by law should be available. Shame on you for joining the (sadly) increasing ranks of those who, under the guise of the War on Terrorism, are abusing their authority and acting as Big Brother censors of all sorts of material that is not the least bit "sensitive."

The community of Eunice, New Mexico has a right to know about the environmental and health impacts that Louisiana Energy Service's (LES) proposed uranium enrichment facility will bring to their community. In fact, the National Environmental Policy Act (NEPA) provides for a public "environmental assessment" of any federal action that could damage the environment. Dear Nils Diaz:

Dear Chairman Diaz,

As an attorney and as a citizen, I am horrified to the blatant disregard that the NRC has shown toward a key federal law, the National Environmental Protection Act.

The community of Eunice, New Mexico has a right to know about the environmental and health impacts that Louisiana Energy Service's (LES) proposed uranium enrichment facility will bring to their community. In fact, the National Environmental Policy Act (NEPA) provides for a public "environmental assessment" of any federal action that could damage the environment. This process includes public notice and comment, and requires your agency to acknowledge and respond to comments.

However, the NRC removed health and safety information from the Draft Environmental Impact Statement of LES's proposed uranium enrichment facility. This action has hampered the public's ability to learn about and provide input on this project. Your agency's actions blatantly violate NEPA, and have set a dangerous precedent for other agencies to disregard public disclosure laws aimed at protecting public health and the environment.

Please reopen the public comment period, provide a complete EIS, and give the public enough time for its consideration. In addition, please provide me with a written response stating how the NRC has the authority to remove a Draft Environmental Impact Statement from public view, and repost a redacted version for public comment.

Sincerely,

Sincerely,

Loulena Miles
