REMARKS: IMC 0801 (Reactor Oversight Process Feedback Program) has been revised so that IIPB receives copies of all Feedback Forms concurrently with regional management via PIPBCAL. The feedback form (Exhibit 1) was revised to reflect this change and enhance the documentation and submission of issues and concerns. Enhancements were also made to improve the tracking of the resolved feedback forms until the revised document is issued.

IMC 2515, App C (Special and Infrequently Performed Inspections) has been revised to add inspection procedure 41500, "Training and Qualification Effectiveness." This is to allow "for cause" inspections when it becomes necessary to augment activities in accordance with 10 CFR Part 55, 10 CFR 50.120, and program office guidance when necessary to ensure safe plant operation.
